

Japanese i6 Engine Sound

Volume 1.

By: Skril Studio

Thank you for purchasing Japanese i6 engine sound vol. 1!

This sound package also available in the following asset:

Realistic Engine Sounds – Pro Edition: <https://bit.ly/3uh8fwG>

Package includes:

- 1 complete engine sound pack
- 40 wav audio files (20 for exterior view and 20 for interior view)
- Prefabs made for Realistic Engine Sounds 2 packed inside a .unitypackage

Import the prefabs made for Realistic Engine Sounds 2

If you want to use this sound pack with **Realistic Engine Sounds 2** unity asset, import ***RES2_Prefabs-Japanese_i6_Vol1.unitypackage*** into your project to get the prefabs made for *Realistic Engine Sounds 2*.

After importing the above mentioned .unitypackage, the new engine sound prefabs will be added in 3 different quality levels into the following folder: ***RealisticEngineSound\Assets\Prefabs\Engine_Prefabs***

Drag and drop one of the newly imported prefab into a vehicle physics compatibility prefab and you're ready to test these new sounds (*Realistic Engine Sounds 2 comes with pre-made compatibility made for some vehicle physic controllers*).

Importing ***RES2_Prefabs-Japanese_i6_Vol1.unitypackage*** without *Realistic Engine Sounds 2* already being in your project will give errors in the newly imported prefabs.

Upgrading from previous version

Firstly backup your project, delete the older version of this asset, then import this asset. Import the new prefabs made for RES2 if you're going to use this sound pack with Realistic Engine Sounds 2. After that all engine sound prefabs from this sound pack needs to be re-added to the vehicles.

License

You can use this asset for unlimited games.

You can use this asset for personal and commercial use.

Cannot be used in real products! (like sound generator for cars, toys, etc!)

Contact for pricing if you want to use these sounds for real physical products like vehicles, toys, etc.

You can't resell or redistribute the package or any single file from the package in any way!

Credits

I would like to say a *Thank You* to my friends and customers who let me record their vehicles or who sent to me their recordings of vehicle's engine sounds and other sounds.

Send your own recordings to me and I will turn them into complete engine sound packs. These recordings should be good quality videos / audios without wind and other unwanted background noises (like crowd, people talk, etc). These new sound packs may later appear in new add-on sound packs. You will get a free copy of the finished work only if you have donated your own recordings and it got used for the making of new sound pack(s).

Feel free to contact me if you have any questions or suggestions for this asset.

Please write a review for this asset in the Unity Asset Store. Thank you!
