- 18 different gearbox sound packs (20 wav files per sound pack)
- Seamlessly looping on_load and off_load sound clips (there are 4 looping sound clips in each sound pack)
- One shot sound clips for engine load „wobble” imitation (16 clips per sound pack)
- Altogether this product contain 360 wav audio files (180 sound clips for exterior camera view and 180 for interior camera view)
- Prefabs made for Realistic Engine Sounds 2 packed inside a .unitypackage

Import the prefabs made for Realistic Engine Sounds 2

If you want to use this sound pack with **Realistic Engine Sounds 2** unity asset, import ***RES2_Gearbox_Vol2.unitypackage*** into your project to get the prefabs and gear shifting sound controller script made for *Realistic Engine Sounds 2*.

Drag and drop one of the newly imported prefab into a RES2 engine sound prefab.

Importing the *unitypackage* without *Realistic Engine Sounds 2* already being in your project will give errors in the newly imported prefabs.

Credits

I would like to say a ***Thank You*** to my friends and customers who let me record their vehicles or who sent to me their recordings of vehicle's engine sounds and other sounds.

Send your own recordings to me and I will turn them into complete engine sound packs. These recordings should be good quality videos / audios without wind and other unwanted background noises (like crowd, people talk, etc). These new sound packs may later appear in new add-on sound packs. You will get a free copy of the finished work only if you have donated your own recordings and it got used for the making of new sound pack(s).

Feel free to contact me if you have any questions or suggestions for this asset.

Please write a review for this asset in the Unity Asset Store. Thank you!
